

On Chian Yee

Aspiring Product Manager | Data Science Master's Student | Fintech & AI Products | [Portfolio](#)
Subang Jaya, Selangor | [LinkedIn](#) | cherylon32@gmail.com | +60196177114 | 25/7/2003

Education

Monash University Malaysia

Master of Data Science | CGPA: 3.63

Bandar Sunway, Selangor

Mar 2026 – June 2027 (Expected)

- Relevant Coursework: Machine Learning, Project Management, Statistical Modelling
Deep Learning, Artificial Intelligence, Data Wrangling

Bachelor of Computer Science in Data Science | CGPA: 3.09

Oct 2022 – Nov 2025

- Relevant Coursework: Data Modelling, Data Analytics, Data Visualisation,
Big Data Management and Processing, Object-Oriented Programming

Study Abroad

Study abroad coursework at Monash University Clayton campus.

Melbourne, Victoria

Feb 2024 – June 2024

Skills & Interests

Product: Agile/Scrum, Backlog Prioritisation, User Stories, Scope & Schedule Planning, Market & User Research

Tools & Tech: R language, Python, Java, SQL, MongoDB, HTML, CSS, JavaScript, Tableau, Spark, Kafka, Website Development & Deployment, Docker, SAS Viya, ClickUp, Jira, TeamGantt, TensorFlow, PyTorch

Language: Mandarin, English, Bahasa Malaysia, Cantonese, Hakka

Certificates: [TeaMWork](#), [Understanding Digital Transformation](#)

Project Experience – Explore in [My Portfolio](#)

TimeWise Engine – Study Planning Platform | [2026 Portfolio](#)

Mar 2026 – May 2026

- Led a 4-person team from project initiation to Agile pilot planning for a platform that turns Moodle deadlines and student availability into personalised study schedules
- Defined project scope with a requirements traceability matrix and scope statement; built the full project schedule and milestone plan in TeamGantt
- Broke the pilot into epics and user stories, prioritised the product backlog, traced each story to requirements and set up the team's Scrum board in ClickUp

Multi-omics machine learning model for predicting chemoresistance | [2025 Portfolio](#)

August 2024 – June 2025

- Designed the end-to-end user flow for non-technical clinicians: CSV upload with validation alerts, filterable results, top-10 drug charts and one-click download
- Tracked delivery against a requirements traceability matrix and used experiment evidence to agree scope changes with the supervisor (e.g. dropping genomics data that reduced accuracy)

Ethical Implementation of AI | [2024 Portfolio](#)

June 2024 – July 2024

- Conducted market research and analysis, navigating the intersection of AI, ethics, and regulation, and its impact on manufacturing, retail, and pharmaceutical industries.

Work Experience & Activities

Persatuan Komputer Universiti Malaya (PEKOM)

UMHackathon 2025

Online

April 2025 – April 2025

- Designed a chat-based AI assistant prototype for Grab merchants that delivers real-time business insights, personalised recommendations, and multilingual communication support to enhance operational decision-making.

IPSOS Sdn Bhd

Internship

Mid Valley City, Kuala Lumpur

November 2024 – February 2025

- Worked as an intern in the CEX department, gained experience in marketing research, data collection, maintaining data quality, visualising data and providing analysis reports.

Monash University & University of Warwick

TeaMWork Virtual Internships Program

Remote

June 2024 – July 2024

- Researched the ethical implementation of AI for a client consultancy in a cross-border team of 6–8 students, guided by the client's industry mentors.
